

WALL STREET.

Market Closing—A sudden upward movement started around 2 o'clock, vigorous buying appeared in Union Pacific preferred advancing the price to 84½, up ½, from the opening. Union Pacific common also was advanced a gain of ½ points from the low of the day. U. S. Steel advanced ½, a gain of 1½ over the low price for the day.

The general list moved up under the active trading in the leaders, and closed near to top prices. This high price of Union was a new record for this movement. Total sales \$25,000,000.

Opening—There was a fair volume of activity at the opening, but stocks were irregular and tendency seemed to be reactionary. Room traders were decidedly bearish in their views and sold stocks pretty freely.

The initial prices showed fractional losses ranging from 1-8 to 1-2 point. Reading up 1-8, Union Pacific off 1-8, and Steel unchanged at 84½.

New Haven opened unchanged at 80, but developed weakness under pressure, declining to 81½.

California Petroleum opened at 80, a loss of 1-4 point. After the first fifteen minutes prices showed slight losses, but reacted efforts of the bearish element to depress the market further, as they had not brought out much stock on the recession.

Before 11 o'clock the leading stocks rallied around one point from the lower prices of the opening, but did not hold the recovery, as vigorous selling brought prices down to the lower level of the first hour.

Lack of support on any advances was the feature, same as late yesterday afternoon. Reading held firm on favorable statement published for year ended June 30.

Union Pacific was fairly strong on the recession, which did not go below the opening, 18 1-4, and was the leading stock on the rallies.

In the early afternoon a few of the active stocks recovered to opening level, with trading dull, and was confined to a few issues. Short covering was the main cause of the rally after selling pressure had stopped.

Cotton opened firm, influenced by the firm cables from abroad. This was a prime factor in opening advance which carried list into new high ground.

Opening prices 8 to 17 points up. Selling by South and profit taking on fair weather forecasts caused some recession after the call, but undertone remained good, and temper of market was bullish because of belief that pronounced deterioration had resulted from recent unfavorable weather and that coming Government report will show heavy loss in condition.

The market was less firm in the second hour, sagging off five to ten points from the opening, due to profit taking sales and continued Southern offerings. Demand is active, however, and bulls are expecting an increasing

trade demand despite unfavorable advices from Manchester.

Irregular market in early afternoon. Trading was spasmodic. By the middle of the afternoon the market was less active with prices ruling about on a parity with last night's close. Cotton closed at the lowest price for the day, five to eight points off from yesterday's close.

CHICAGO WHEAT AND CORN.

Mar.	84 1/2	85 1/2	84 1/2	85 1/2
May	84 1/2	85 1/2	84 1/2	85 1/2

Wheat was steadier on cables. There was some pressure due to big movement in Canada; prices opened 1/4 to 1/2 higher.

American spring wheat receipts are only moderate. Corn was firm up 1/4 to 1/2, with light offerings reported from country.

Weather conditions generally favorable. Both wheat and corn eased off in the second hour to the extent of 1/4.

Further declines occurred in the late morning in both wheat and corn. The latter was subjected to scattered profit taking sales. Speculative demand was low and foreign inquiries lacked volume in wheat.

Wheat was steady in early part of afternoon, with very little outside interest. Corn firm, with light offerings, but inclined to go lower. Both wheat and

corn declined toward the close from 3-4 to 1-4 of a point, and both showed losses of about 1-2 point in all options.

TELEPHONE TRUST SUIT.

Worries McReynolds

More Complaints Made and Attorney-General Not Willing to Await Interstate Inquiry.

WASHINGTON, Sept. 18.—Whether to attack the American Telephone and Telegraph Company—the so-called Bell Telephone trust—under the Sherman anti-trust law is now being considered by Attorney-General McReynolds.

More complaints from independent telephone interests that the big company is crushing competition have been received recently by the Attorney General, who indicated today that he must soon decide whether the Department of Justice should await the conclusion of the pending telephone inquiry by the Interstate Commerce Commission or undertake an investigation with the purpose of bringing a civil suit if the facts

warrant such action.

The Interstate Commerce Commission's inquiry, undertaken at the request of former Attorney-General Wickham, will probably require two or three years. It is a question whether Attorney-General McReynolds will find it justified in refraining from serving under the Sherman law in the meantime.

NEW HAVEN DROPS 2 1/2 POINTS TO LOW RECORD.

Price Goes to 85 1/2-2, 44 1/2-8 Under High Mark for Year.

A break of 2 1/2 points in the stock of the New York, New Haven and Hartford Railroad on the Stock Exchange today carried down the price to 85 1/2, a new low record in the history of the present corporation. At 84 1/2 the stock showed a loss of 8 points since the close of last week. It was 44 1/2 points under the high price of the year, reached on Jan. 10. The de-

precitation in market value represented by this decline is nearly \$2,000,000.

The stock rallied a point after touching 86 1/2 and no more offerings were pressed for sale.

The long decline in the shares, extending back more than a year, grew out of the various difficulties, financial and otherwise, of the New Haven sys-

tem and the reduction in the dividend from the 8 per cent. paid for many years to the present basis of 6 per cent.

The intimation given recently by Howard K. Kirk, the newly created head of the system, that a further reduction might be deemed advisable is believed to have been a factor in the renewed decline in the price.
